

Spirotechnics

download location: http://sight-creations.com/free_stuff/sc_spirotechnics.zip

This is an FCPX Generator

Installing as a Generator

Internal drive/
Users/

YourHomeDirectory /Movies /Motion Templates /Generators /Create a Category Folder
(example: Utilities)

place entire Spirotechnics folder inside

restart FCPX
(if necessary)

License

This software marks the beginning of a change in licensing, so please be aware of the changes:

Change: You may not use Sight-Creations Motion effects to create "stand-alone" video clips to be sold as templates. Sight-Creations' motion effects can only be used as derivatives in the production of your personal or commercial video.

Standard: Sight-Creations effects for fcpx are free for private and commercial production of video. You may NOT rename and/or sell/resell these effects without express written permission. You may break down these effects to reverse engineer them to see how they work and to learn (if there is anything to learn ;) —there is no copy protection for Motion projects.) Please have the good grace not to copy them and pass them off as your own.

Thanks!

Thank you for your interest in sight-creations effects for FCPX. Enjoy!

Contributions:

If you would like to **make a contribution to keep these effects free** and aid development of more effects, you can make a contribution via paypal (you do not need an account) from the "share the freedom" button on the <http://sight-creations.com> homepage. Your help in this way will be greatly appreciated.
